## FULL-STACK JAVASCRIPT DEVELOPER

Over 3 years of experience building B2C e-commerce stores using technologies such as HCL Commerce and Salesforce for companies like Claro Colombia and Claro Chile. I led the new frontend development for Claro Colombia to successfully deploy the project on the web. Additionally, I have collaborated on backend and DevOps development, leveraging my experience as a full-stack developer.

## WORK EXPERIENCE

### AVATAR GLOBAL

#### *Technical Leader Frontend*

September 2021 - January 2025 · 3 yr 4 mos (Lima, Peru) (B2C E-commerce)

#### RESPONSIBILITIES

- Initially, I developed a web application to manage services as a provider of mock APIs for the e-commerce stores being developed at that time. The goal was to simulate the responses of real backend services.
- I developed and implemented upgrades for B2C e-commerce stores for companies like Claro Chile and Claro Colombia, enhancing their online shopping experiences.
- I led the development of a new frontend architecture for Claro Colombia, successfully deploying it on the web.

#### KEY ACCOMPLISHMENTS

- In September 2024, I was promoted from Frontend Developer to Tech Leader Frontend.

## PREVIOUS EXPERIENCE

### NGO OLADEG

#### *Full Stack Developer*

January 2021 - July 2021 · 7 mos (Lima, Peru) (Web Institutional)

#### RESPONSIBILITIES

- During my practical training at an NGO, I designed and developed an institutional web portal, taking it from initial requirements to successful deployment on the web.
- I continue to maintain this website, addressing and resolving any issues that might happen.

#### KEY ACCOMPLISHMENTS

- I increased the sales of published courses by average 40%.
